AUSTRALIAN BRITISH HEALTH CATALYST 2019

Australia and the UK face similar challenges: ageing populations, increased health costs and pressures on Government and Health Insurance funding. The Catalyst will examine how digital technology is revolutionising the sector from better management of records, facilities and diagnoses, through to better patient engagement and outcomes.

Aimed at healthcare leaders from Australia and the UK including Government, industry, academics, innovators, technology and research experts, keen to share knowledge in dealing with these issues, and drive innovative solutions.
